### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Before line 1 on page 1 of the Specification, insert the following sentence,

--This application is a continuation of United States Patent Application  
10/083,473, filed February 27, 2002, now United States Patent 6,819,283.—

3. Because the Examiner's Amendment above is merely editorial in nature, to prepare the present application for printing as a patent, no authorization for the Amendment was sought.

### **REASONS FOR ALLOWANCE**

4. The following is an examiner's statement of reasons for allowance:

None of the prior art of record either taken alone or taken in any possible combination would anticipate or would tend to render obvious Applicants' claimed apparatus as set forth in sole independent claim 20 that is particularly characterized at least by the claimed "control means ..." (lines 6-8); "means for detecting a detection performance level ..." (lines 9-10); and "means for causing said control means to individually enable or interrupt operation ..." (lines 11-13) taken together and taken in the overall context of independent claim 20.

Dependent claims 21-28 are allowable for at least the reasons for which independent claim 20 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
